Enaction

For Those En Route.

Student Commuters

Stakeholders?

1. College students commuting 20+ minutes who crave the “college experience” but struggle against time and social barriers.
2. Professors and Clubs who want to include commuters but struggle to increase awareness and convenience.

Why?

- Feeling like an invisible student and outsider
- Present in class but absent from campus life
- Watching college happen right in front of us
- Profs and clubs want to be inclusive and grow

R/COLLEGE TESTIMONIALS

“...I lived an hour away, one way. I did feel like an outsider...”

u/worlds_away_

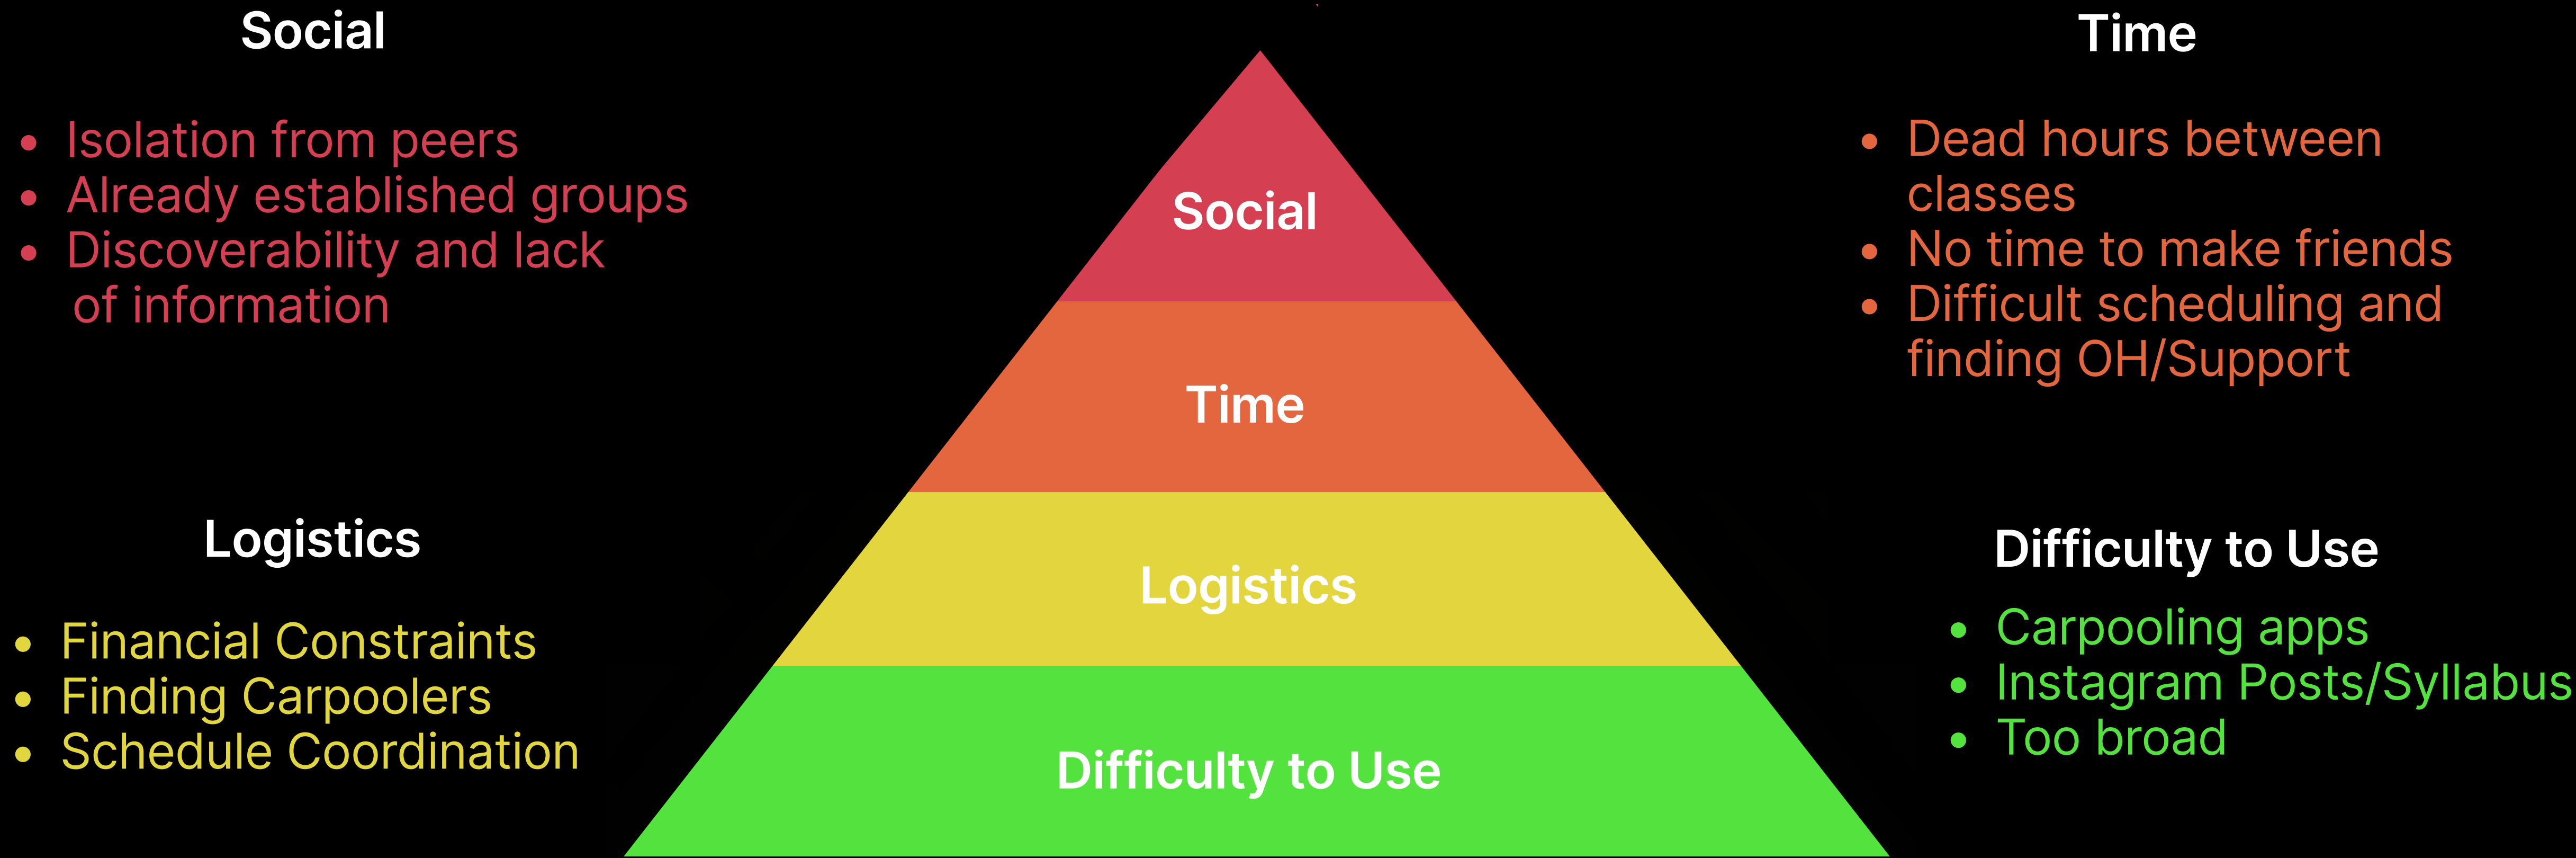

“I feel like I'm missing out on everything that makes college fun...”

u/Kirbo300

*In a comparative study of nursing students, a 50.5% reduction in failure rates was associated with peer tutoring.
(Kim, Jillapali, & Boyd, 2020)*

College is hard. Much harder for *outsiders*.

Prioritization Triangle

SOLUTIONS

Let's make it *easier*.

1

Approach Me

1. Add schedule and set status
2. Find a new friend
3. Connect!

2

Carpool

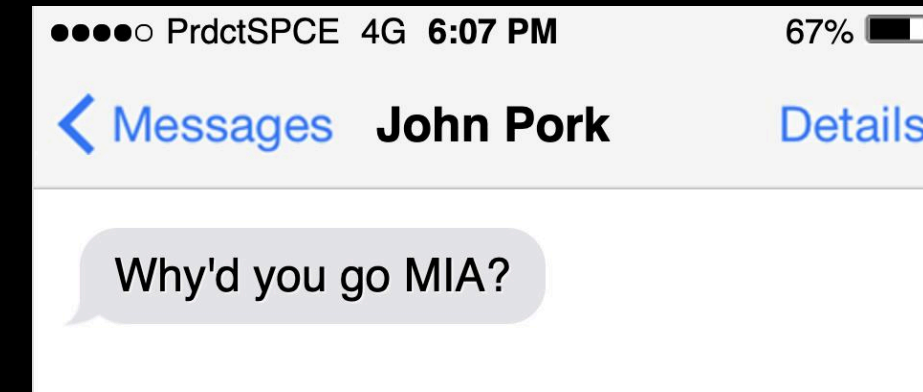

1. Set route
2. Find riders or drivers
3. Karaoke with new friends!

3

NO-MIA

1. Find social events
2. Scavenger hunt
3. Get sendy!

4

DormBNB

1. Find a place to stay
2. Make friends
3. Be spontaneous!

FUTURE PLANS

Approach Me 🙋

Key Features

Approach Me Mode

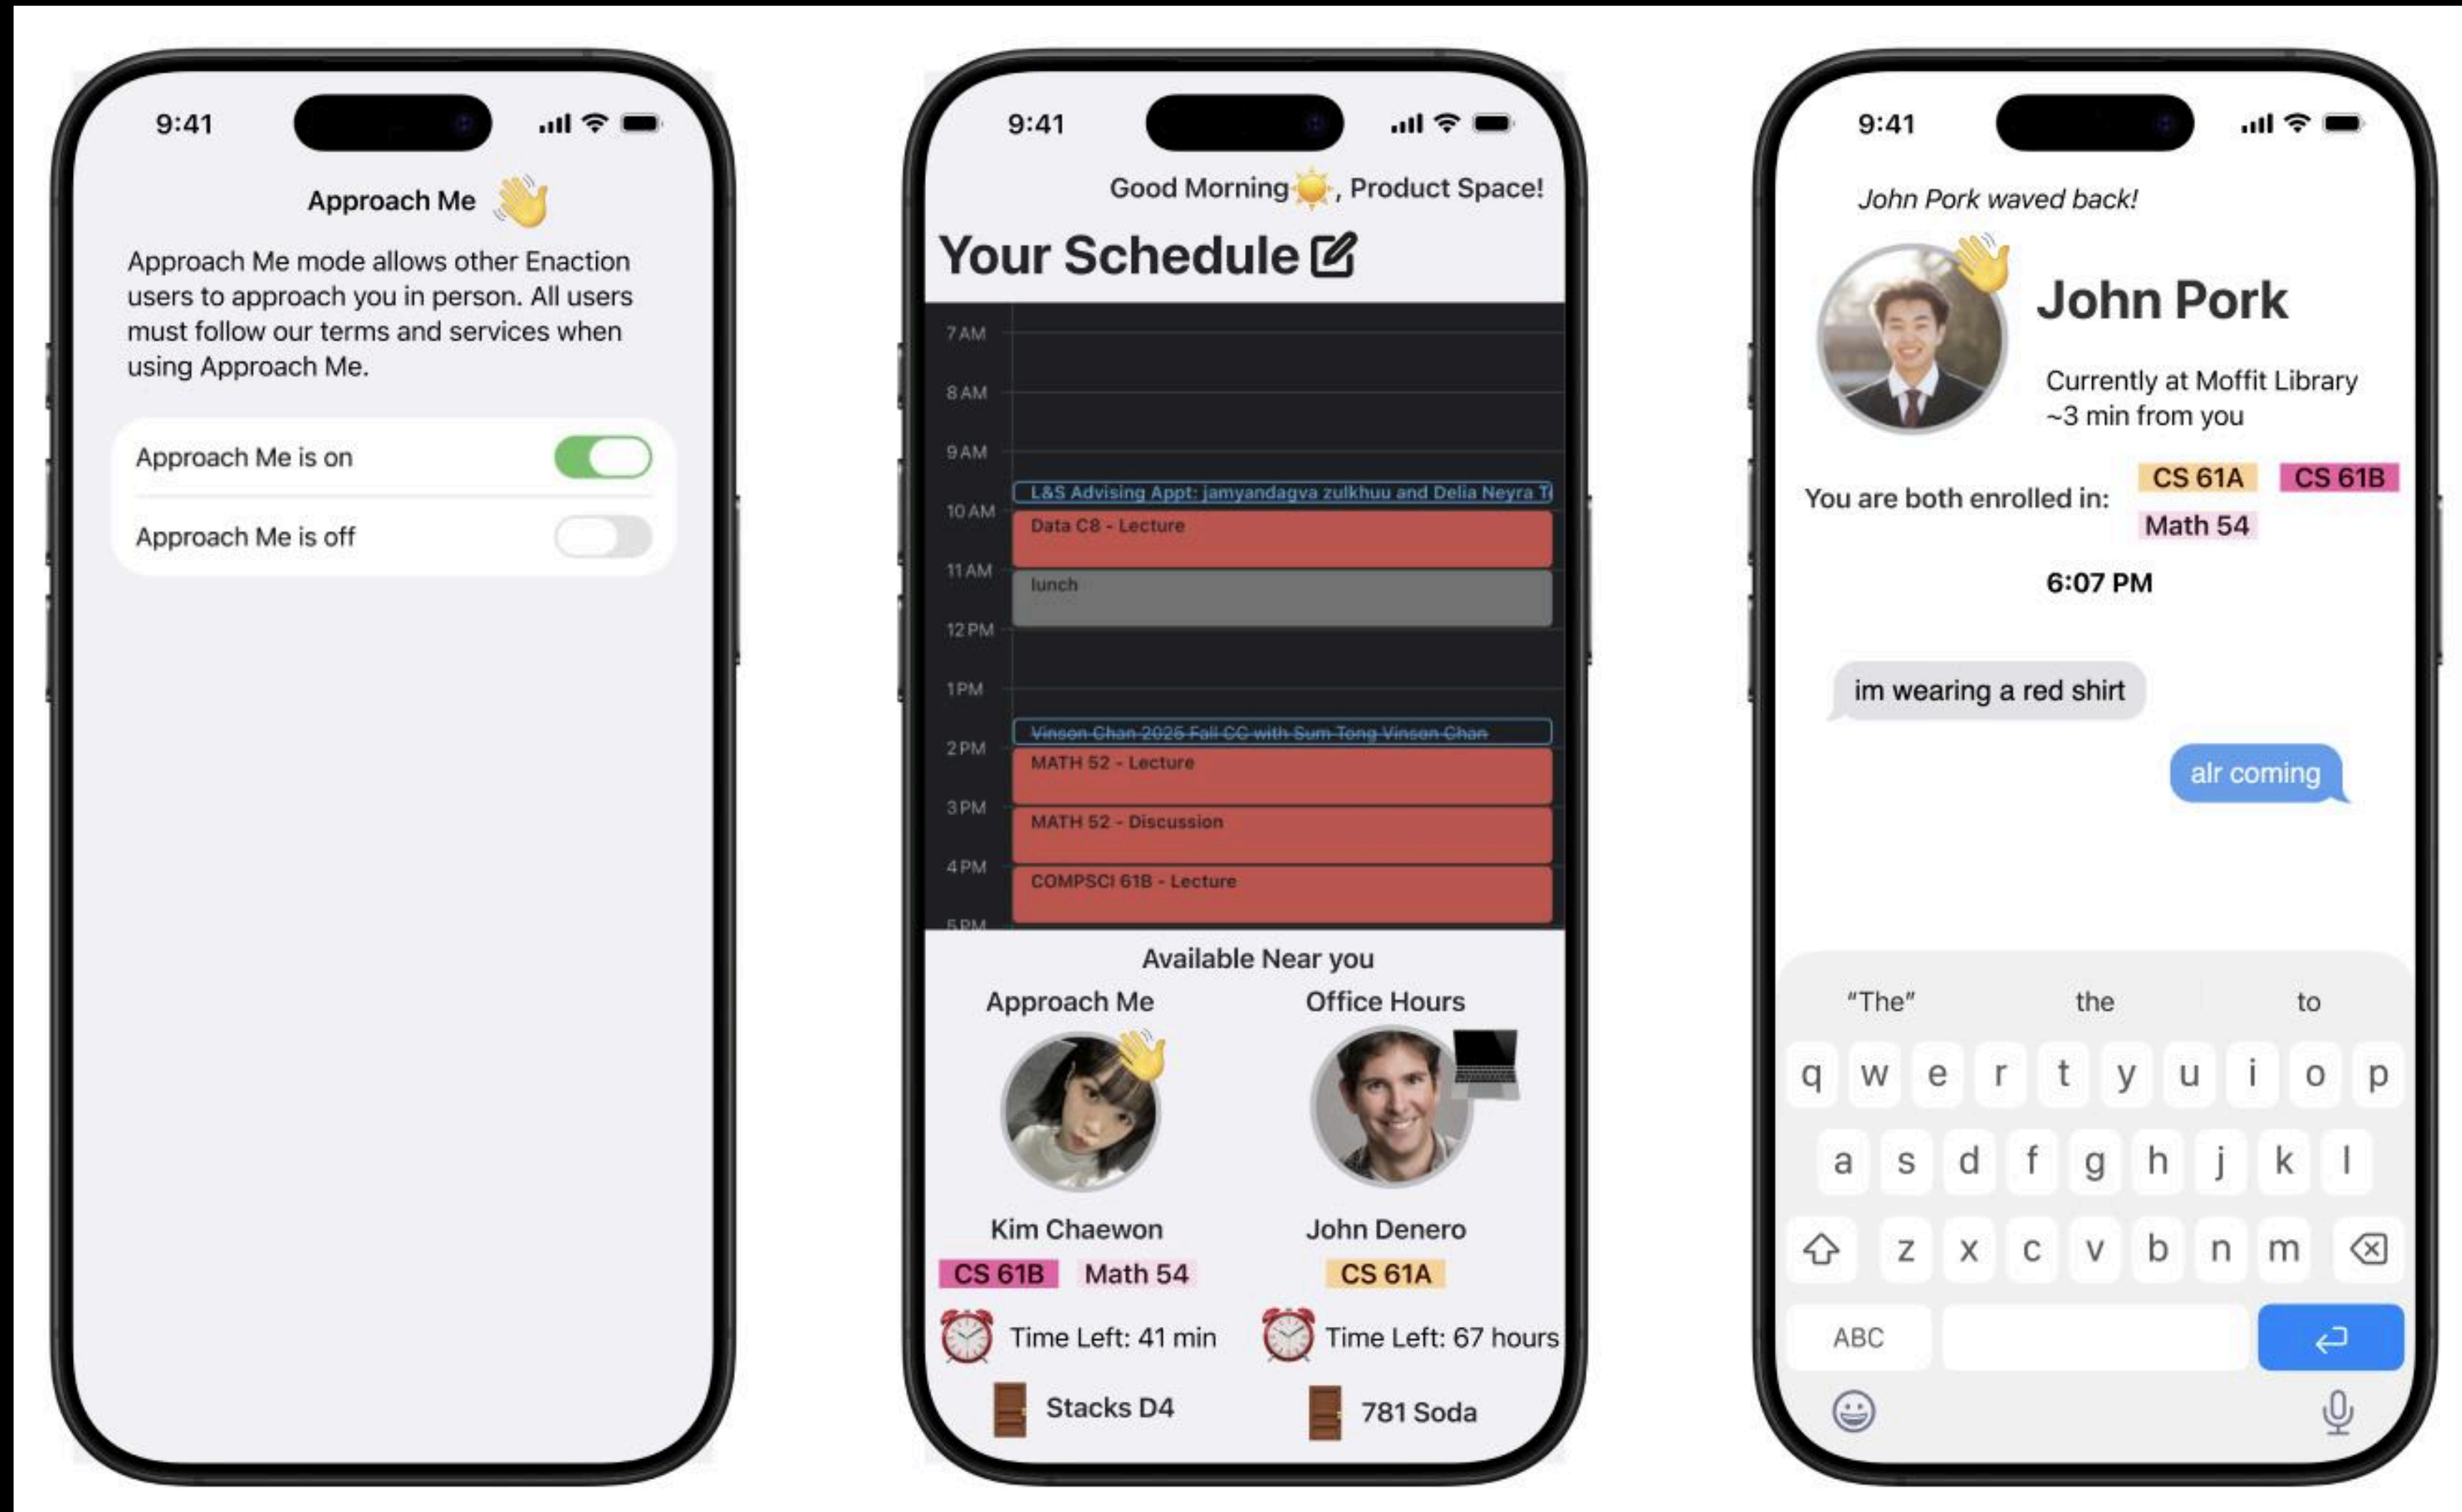

Users give the green light (🙋) for other verified students to come study with them.

Available Nearby Students & OH

Set your schedule and see which available students and OH are closest to you.

Messaging Platform

Students can text to confirm exact locations with potential study partners.

Risks

1. Stranger danger
2. Content moderation
3. Fake profiles
4. Harassment
5. Low adoption

Mitigations

- Emergency contact integration
- Campus security partnerships
- Community reporting tools
- Student ID verification
- Professor endorsements
- Referral System

Go-To-Market

Launch

1. Start with 1-2 pilot universities
2. Gamify and incentivize high-fives and referrals
3. Exclusive Events
4. Free Gas and Parking

Quantitative

- DAU/WAU/MAU
- Repeat Connections
- User Acquisition Cost (CAC)
- Student Verification Rate
- Approach Me Usage
- Organic vs Paid User %

Qualitative

- Social Anxiety Reduction
- User Satisfaction Score(CSAT)
- Ease of Use Feedback
- User Trust Score
- Moderation Effectiveness

Metrics

1. User acquisition cost
2. Retention rate
3. Deploy CSAT surveys
4. % commuters v.s. non

Future Plans

- Alumni-targeted features
- Airport Carpool
- Hangover Hotel
- Tutor Freeconomy
- RSF Bros
- Scavenger Hunt
- Fraternity Collabs
